By George R Chatburn

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Highway Engineering: Rural Roads and Pavements In writing a text-book on a subject which is growing as rapidly as highway engineering is at the present time one finds himself confronted with a varying practice. The student who desires the latest up-to-date matter on roads must consult contemporaneous engineering periodicals and literature and sift from them what he deems best suited to his purpose. In (his work the author has endeavored to bring into a brief space the most recent and best practice as determined by his experience and research. As this text is more especially concerned with rural roads, those types of roads most common in the rural districts, small cities, and towns, or best adapted for use therein, have been covered in greatest detail. Pavements have been treated largely with a view to their use for country roads, although the treatment, is thought to be sufficiently comprehensive to form a beginning or short, course for those desirous of taking up city paving work. The author is of the opinion that almost all of the...
