Oak Tree Press (Ireland). Paperback. Book Condition: New. Paperback. 126 pages. Dimensions: 8.9in. x 6.0in. x 0.5in. Across the world, being promoted to manager is seen as a validation of career success. Professionals who spend all of their college education learning about engineering or accountancy or law have spent their early years applying that learning as an individual contributor and have had little opportunity to study or practice being a manager and leading a team. Whether you work in industry, professional services, the public service, or not-for-profit organisations, the challenge of the transition into a management role cannot be underestimated. Not satisfied with drawing on his own extensive international experience, the author has interviewed highly experienced and successful managers in the US, UK, Ireland and Asia, who openly shared their experiences and insights, warts and all! Part One of this book explores the essential transition that takes place from being an individual contributor and team player to becoming a manager - from being focused on your own work to being focused on the work of others. Part Two highlights important skills and competencies in managing people, as a tool kit to support you on your journey of continuous learning and personal growth. While the key objective of *Becoming a Manager* is to help and support newly-appointed managers through their transitions into management, it should also be of interest to HR and Employee Development departments as they seek to attract, develop and retain management talent, and to would-be entrepreneurs, considering starting their own business. There's not much theory here. Hopefully in its place, you'll find an opportunity to reflect on sound practical advice and good common sense. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
