Despite modern technological advancement, many people still suffer from weak immune system and are more susceptible to common illness and disease. Knowing how to strengthen your immunity is essential to ensure that every cell in your body is protected from free radicals and toxins that can cause sickness. The human immune system protects the whole body from foreign pathogens like parasites, fungi, virus and bacteria. The immune system is composed of cells, tissues and organs that make up the body s defense system. Grab the book to discover more!.
