Reviews

This publication is definitely not simple to begin on studying but really exciting to read. It is actually rally fascinating throgh reading time. Your life span will be enhance when you complete looking at this publication.
(Laurence Littel)

THE DOMAIN TESTING WORKBOOK

Context Driven Press, United States, 2013. Paperback. Book Condition: New. 278 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Domain testing is the most widely taught technique in software testing. However, many of the presentations stick with examples that are too simple to provide a strong basis for applying the technique. Others focus on mathematical models or analysis of the program s source code. The Domain Testing Workbook will help you develop deep skill with this technique whether or not you have access to source code or an abiding interest in mathematics. The Domain Testing Workbook provides a schema to organize domain testing and test design, with dozens of practical problems and sample analyses. Readers can try their hand at applying the schema and compare their analyses against over 200 pages of worked examples. You will learn: when and how to use domain testing; how to apply a risk-focused approach with domain testing; how to use domain testing within a broader testing strategy; and how to use domain testing in an exploratory way. This book is for: Software testers who want to develop expertise in the field s most popular test technique Test managers who want to assess and improve their staff s skills Trainers and professors interested in adding depth and skill-based learning to black box testing or test design classes. Cem Kaner, J.D., Ph.D., is Professor of Software Engineering at the Florida Institute of Technology. Dr. Kaner is senior author of Testing Computer Software, Lessons Learned in Software Testing and Bad Software. The ACM s Special Interest Group for Computers and Society presented him with the Making a Difference Award in 2009 and the Software Test Professionals presented him with the Software Test Luminary Award in 2012. Kaner was a founder of the...
