*****. This book is very, very different to any other computer

book you have ever read. The Smart Method provides an entirely new and better way to learn , C# and Visual Studio.

Here are just five of the many ways in which this book is

unique: This book won't waste your time by teaching basic

skills that you already know. All of that material is covered

already in our beginner's Essential Skills book. By assuming

that you are already able to use the basic features, far more

ground can be covered. Instruction is logically structured into

sessions and lessons. While this makes the book ideal for self-

instruction, you can also use it to run your own, highly

effective, adult training courses. Every lesson is presented on

two facing sheets of A4 paper (the pages are much bigger than

in any other book). Each lesson has a sample file that models a

real-world business problem. Along with programming skills,

this book teaches best practices that are often ignored by other

books. You'll immediately appreciate the...
