PROBLEMS IN ANALYSIS

Book Condition: New. Publisher/Verlag: Springer, Berlin | These problems and solutions are offered to students of mathematics who have learned real analysis, measure theory, elementary topology and some theory of topological vector spaces. The current widely used texts in these subjects provide the background for the understanding of the problems and the finding of their solutions. In the bibliography the reader will find listed a number of books from which the necessary working vocabulary and techniques can be acquired. Thus...

Reviews

This publication can be well worth a study, and far better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly simple way and it is only soon after i finished reading through this book in which really transformed me, alter the way in my opinion.
