Towards Digitization of Referral Appointments Services in Tanzania

By John Ndindwa

LAP Lambert Academic Publishing Apr 2015, 2015.

Taschenbuch. Book Condition: Neu. 220x150x10 mm. This item is printed on demand - Print on Demand Neuware - The adoption and application of Information and Communication Technology (ICT) in e-health care is the recognition of economic development in health sector both for developing and developed countries. The result of ICT application is to simplify way of running hospital processes to deliver quality health care services in Tanzania. Subjective revolution is in reduction of wrong check-ups created by wrong patient information, reduction of cost and time in delivering health referral service. The key thing here is to create an environment to improve relationship of doctor and patient that rely on doctor that working in an environment with good communication infrastructure for hospitals in achieving improved referral services. The ICT adoption and application in health care is facing some challenges to enhance referral services as follows; information accuracy, speed in processing, integration, security and reliability for decision making. At this research book we focused on Design Digitized Referral Appointment System (DRAS) through application of ICT to solve referral services challenges by allowing patients to book online appointments for accessing referral hospital services. 168 pp. Englisch.

Reviews

This kind of pdf is every thing and made me seeking ahead plus more. It is probably the most amazing ebook i have study. I am quickly can get a enjoyment of reading a composed pdf.

-- Florence Rutherford DDS

Definitely among the best ebook I actually have possibly read through. It is really simplified but unexpected situations in the 50 % from the publication. You wont truly feel monotony at at any time of the time (that's what catalogues are for concerning in the event you ask me).

-- Jerald Champlin II
